Young delegate program in Inter-America grooms Adventists under 30 for church work: Lelis Viera has a message for Seventh-day Adventist Church leaders: "Put us to work."

The twenty-year-old Puerto Rican and student at Antillean Adventist University was among three young delegates who attended the church's Inter-American regional year-end meetings in Miami this month and hope opportunities to shape the church's future don't end there.

Since 2006, three of the church's administrative regions in Inter-America have each selected a local young Adventist to help represent his or her fellow church members at annual regional business meetings. As temporary full members of the region's Executive Committee, they're invited to participate in discussions and vote on agenda items.
